4 · INSPECTION DECLARATION

I certify that I carried out this inspection and provided all inputs, including ratings, comments and photos. I declare they are truthful and represent the condition of the property at the time of inspection. I acknowledge that Tenify does not verify these inputs and accepts no responsibility or liability for the contents of this report.

DECLARED BY	DATE
Michael Smith	**23 October 2026**

Example report

How to read this report

PURPOSE OF REPORT

This report records the condition of the property as observed and reported by the inspector on the day of inspection. Items are rated and, where required, photographed to give the landlord and tenant a shared record. For questions about this report, please refer to the cover page for the inspector's details.

WHAT IS INSPECTED

FIXTURES

Built-in items that come with the property, including built-in appliances: windows, doors, built-in cabinets, power points, showers, sinks, lighting, countertops, cooktops, ovens, fridges, dishwashers, walls and floors.

FURNISHINGS

Standalone items included with the lease, including standalone appliances: furniture, beds, mattresses, tables, chairs, TVs, microwaves, kettles, rugs, decorative items, lamps and storage units.

WHAT IS NOT INSPECTED

Locked or inaccessible areas. Anything not accessible at the time of inspection is not covered by this report.

Build quality or hidden defects. This isn't a structural or construction audit. The assessment covers usability and condition, not workmanship or compliance.

Systems beyond basic function. Checks cover whether a tap runs hot and cold, not water pressure or plumbing depth, and whether a dishwasher starts, not electrical capacity.

Safety compliance. Building codes, fire safety and regulatory standards are outside the scope of this report.

FURNISHINGS: RATING SCALE

Furnished items are rated from 5 (excellent) to 1 (poor).

RATING	MEANING	DESCRIPTION	SUGGESTED ACTION
5	**Excellent**	Like new. No visible wear or defects.	**No action needed.**
4	**Good**	Light wear. Only noticeable up close.	**No action needed.**
3	**Fair**	Some wear. Noticeable when you look at it. Fully usable.	**No action needed.**
2	**Worn**	Obvious wear. Easy to see at a glance. Still usable.	**Review for repair, replacement or removal.**
1	**Poor**	Damaged or unusable. Broken, torn, burnt or missing parts.	**Repair, replace or remove.**

How to read this report (continued)

FIXTURES: TWO CHECKS PER ITEM

CHECK	WHAT IT RECORDS
Functions as expected	Yes if the item works as it should. What this means depends on the fixture type, shown below.
Visible damage	Yes if there are cracks, chips, discoloration or wear that affects safety or usability.

What "functions as expected" means by fixture type:

FIXTURE TYPE	WORKS AS EXPECTED WHEN
Doors & windows	Open and close freely; locks engage securely.
Appliances	Operate without abnormal noise, smell or performance issues.
Taps & showers	Hot and cold water run freely; sealant is intact to prevent leaks.
Cabinets & shelving	Doors move smoothly; structure is sound with no wobbling.

Functions, no damage
No action needed.

Functions, has damage
Review for repair or replacement.

Does not function
Repair or replace.

HOW FAIR WEAR AND TEAR IS DEFINED

Fair wear and tear is the normal, expected deterioration from regular use over time. Rate condition as found. Fair wear and tear alone does not lower a rating below 3.

FAIR WEAR AND TEAR

- Light surface scratches on furniture from normal placement or movement.
- Faint discoloration or fading from sunlight exposure.
- Minor creasing in upholstered items from sitting.
- Small scuffs on walls from hanging pictures.
- Worn grout lines in tiled areas.
- Faded paint in high-traffic areas.

NOT FAIR WEAR AND TEAR

- Broken components such as hinges, zippers or handles.
- Stains from spills or accidents.
- Rips, tears or holes, even small ones.
- Discoloration from damage or neglect.
- Missing parts or pieces.

How to read this report (continued)

NEXT STEPS

1. Review this guide to understand what each rating means.
2. Read the full report room by room, including the photos of furnishings and faulty fixtures.
3. Raise any concerns with the inspector named on the cover page if the report does not match the property's condition.
4. Keep this report as a record of the property's condition at the date of inspection.

Terms and conditions

1. Nature of this report
This is a property condition report. It records the condition of the property, its fixtures and furnishings, as observed on the date shown on the cover. It is not a snagging report or defects list. It does not assess workmanship, construction quality or completion of works. It is not a structural survey, building inspection, safety or regulatory compliance check, or valuation.

2. Role of the inspector
The inspection was carried out by the person named on the cover (the "Inspector"), who entered all ratings, comments and photographs. The Inspector is solely responsible for that content. The Inspector may be a party to the tenancy or its representative, and need not hold any professional qualification. Their inputs are presented without alteration or verification.

3. Role of the app provider
This report was produced using an app supplied by a technology provider (the "App Provider"). The App Provider supplies the software only. It is not a party to the tenancy and did not carry out or attend the inspection. It does not verify, endorse or adopt the contents of this report, and it does not act as inspector, agent, surveyor, adjudicator or adviser to any party.

4. Accuracy and reliance
The contents are not independently verified. They reflect the Inspector's observations and judgement, and ratings are subjective. Any party who disagrees with the report should raise it with the Inspector promptly.

5. Photographs and evidence
Photographs show an item's condition at the time of inspection and may not capture every mark. The absence of a photograph does not mean a defect is absent.

6. Limits of the inspection
Only areas and items accessible at the time of inspection are covered. Fixtures are checked for basic function and visible damage only. Concealed defects, wiring, plumbing and structural elements are outside scope. The absence of a recorded issue does not confirm that none exists. It reflects the property only at the date and time shown on the cover.

7. Suggested actions
Suggested actions are indicative only. They are not instructions, repair obligations or cost estimates, and they do not determine who is responsible for any work.

8. Use of this report
This report is a record of condition at the date of inspection, for the landlord, the tenant and their representatives. It may be shared with the parties to the tenancy and with any body resolving a dispute. It is not a determination of responsibility, fair wear and tear, or entitlement to any deposit. Those matters rest with the parties or the competent authority. This report does not form part of, vary or replace any tenancy agreement.

9. Limitation of liability
To the fullest extent permitted by law, the App Provider accepts no responsibility or liability for the contents of this report, for decisions made in reliance on it, or for loss arising from errors or omissions in the inputs supplied by the Inspector. Nothing in these terms excludes liability that cannot be excluded by law.

10. Data and privacy
This report contains personal contact details of the parties named on the cover. Store and share it only for purposes connected with the tenancy, and delete it when no longer needed.

11. Governing law
This report, and any dispute about it, is governed by the laws of the jurisdiction in which the property is located, unless the parties agree otherwise in writing.

Inspection report complete

Keep this report as a record of the property's condition at the date of inspection.
