INSPECTED BY

Agent

Tenify

Welcome

PURPOSE OF REPORT

We're here to give you clarity. This report documents exactly what you're moving into — no guesswork, no disputes later. Everything inside is designed to protect you, the landlord, and everyone in between.

This is a pre-move-in property inspection conducted by **Agent** of **Tenify** on behalf of **James Smith** before you take occupancy.

WHAT WE INSPECT

FIXTURES

Built-in items that come with the property: windows, doors, built-in cabinets, power points, showers, sinks, lighting, countertops, stovetops, fridges, dishwashers, walls, and floors.

FURNISHINGS

Movable items included with your lease: furniture, portable appliances (microwaves, kettles), beds, mattresses, tables, chairs, TVs, decorative items, lamps, and storage units.

Every finding is photographed and rated so there's a clear record of condition on day one.

WHAT WE DON'T INSPECT

- **Locked or inaccessible areas** — If a room, cabinet, or space wasn't available during the inspection, we note it rather than guess.
- **Build quality or hidden defects** — This isn't a structural or construction audit. We assess usability and condition, not workmanship or compliance.
- **Systems beyond basic function** — We check if your tap runs hot and cold, not water pressure or plumbing depth. We check if your dishwasher starts, not electrical capacity.
- **Safety compliance** — Building codes, fire safety, and regulatory standards are outside scope. Those are the landlord's responsibility.

Our assessment criteria

FURNISHINGS

Every furnished item gets a rating from 5 (excellent) to 1 (poor).

RATING	MEANING	DESCRIPTION	RECOMMENDED ACTIONS FROM LANDLORD
5	**Excellent**	New or looks brand new, no visible wear or damage, works perfectly.	**No action needed. Item is ready for move-in.**
4	**Very good**	Minimal signs of use; light surface wear that doesn't affect how it works.	
3	**Good**	Noticeable everyday wear but completely functional. No broken parts.	
2	**Fair**	Functional but with substantial wear or damage: chips, cracks, loose parts.	**Review item for repair, replacement, or removal.**
1	**Poor**	Non-functional or unsafe. Major damage, broken parts, or won't work at all.	**Repair, replace, or remove before move in.**

FIXTURES

Each fixture gets two assessments:

Functionality

Doors & windows: Open and close freely; locks engage securely.

Appliances: Operate without abnormal noise, smell, or performance issues.

Taps & showers: Hot and cold water run freely; sealant is intact to prevent leaks.

Cabinets & shelving: Doors move smoothly; structure is sound with no wobbling.

Damage

No cracks, chips, discoloration, or wear that affects safety or usability.

RECOMMENDED ACTIONS FROM LANDLORD

Functions and no damage

No action needed.

Functions but has damage

Review for repair or replacement.

Does not function

Repair or replace before move-in.

Tenify

Our assessment criteria (continued)

HOW WE DEFINE FAIR WEAR AND TEAR

Fair wear and tear is the normal, expected deterioration from regular use over time. Items with fair wear and tear alone do not get downgraded.

FAIR WEAR AND TEAR

- Light surface scratches on furniture from normal placement or movement.
- Faint discoloration or fading from sunlight exposure.
- Minor creasing in upholstered items from sitting.
- Small scuffs on walls from hanging pictures.
- Worn grout lines in tiled areas.
- Faded paint in high-traffic areas.

NOT FAIR WEAR AND TEAR

- Broken components such as hinges, zippers, or handles.
- Stains from spills or accidents.
- Rips, tears, or holes, even small ones.
- Discoloration from damage or neglect.
- Missing parts or pieces.

NEXT STEPS

1. Review this guide so you know what each rating means.
2. Read the full report section by section including photos.
3. Flag any concerns with the named inspector of the cover page if something doesn't match your understanding.
4. Keep this report. It's your proof of the property's condition on day one, protecting your deposit when you move out.

Executive summary

INSPECTION RECORD

Summary of fixtures and furnishings assessed in each room

ROOM	FIXTURES	FURNISHINGS
Lounge/living area	1	0
Total	**1**	**0**

ACTION NEEDED

The following items have been flagged for immediate repair, replacement or removal

No items requiring immediate attention.

REVIEW NEEDED

The following items have been flagged for review for potential replacement, repair or removal

No items flagged for review.

Fixtures

NO ACTION NEEDED

These fixtures passed both assessments and require no action

FIXTURE NAME	FUNCTIONS AS EXPECTED	FREE OF VISIBLE DAMAGE
Doors	Yes	Yes
